

Dear Freshmen of 2022,

### **Coming to University campus**

A WARM WELCOME from HKBU Estates Office!! To ensure health safety of all our students and staff, the University implements campus access control which requires your attention before coming back to campus. Details of the control can be found at this [LINK](#).

BEFORE you come back to campus, please complete the following:

#### **UPLOAD YOUR VACCINATION AND/OR RECOVERY RECORDS**

1. Download the **HKBU Mobile app**.
2. Sign in the Mobile app using your own Single Sign On user identity (SSOid).
3. Open the App and select “Health Declaration”.
4. On the Health Declaration page, select “Vaccine Pass Declaration”.
5. Fill in all the information required and upload picture or screen cap of the QR codes of your vaccination and/or recovery records.

#### **EVERY DAY BEFORE YOU NEED TO ENTER CAMPUS**

1. Open the HKBU Mobile app and select “**Health Declaration**”.
2. Answer the Health Declaration questions carefully.
3. If you fulfil the health requirements, your student card or e-card will generate a green light when it is scanned at campus access control points. You can enter the campus after going through a temperature check.

Uploading the above records or answering the Health Declaration questions requires connection to the internet. Please complete them well before you reach the campus entrances to avoid delays.

If you have questions about campus access, please contact the Sustainability, Health and Safety Section of the Estates Office via 3411 7997 or email to [shs@hkbu.edu.hk](mailto:shs@hkbu.edu.hk).
